How should we balance the social aspects and the academic work in the group?	
What are my special areas of interest in this project?	
What is my level of ambition?	
How should we define the work pace?	
How is the project work prioritised in relation to my other obligations and interests?	

<p>What do I hope to learn from the project in terms of work process, group work and academic competencies?</p>	
<p>What are the responsibilities of each group member in relation to the group?</p>	
<p>What are the responsibilities of the group in relation to each member?</p>	
<p>Are there responsibilities between group members that should/could be addressed?</p>
